

INSTRUCTIONS

1. This Questionnaire contains eight (8) pages. Check the number of pages and make sure it has the correct number of pages and their proper numbers.

All the items have to be answered within/our (4) hours. Since there are twenty (20) questions, you have 12 minutes to answer each question, and 6 minutes to answer each sub-question. You may write on the Questionnaire for notes relating to the questions.

Read each question very carefully and write your answers in your Bar Examination Notebook *in the same order the questions are posed*. Write your answers only on the *front* of every sheet in your Notebook. If not sufficient, then start with the back page of the first sheet and thereafter. Note well the allocated percentage points for each number, question, or sub-question. In your answers, use the numbering system in the questionnaire.

2. Answer the Essay questions *legibly, clearly, and concisely*. Start each number on a separate page. An answer to a sub-question under the same number may be written continuously on the same page and the immediately succeeding pages until completed.

Your answer should demonstrate your ability to analyze the facts, apply the pertinent laws and jurisprudence, and arrive at a sound or logical conclusion. Always support your answer with the pertinent laws, rules, jurisprudence, and the facts.

A mere "Yes" or "No" answer without any corresponding explanation or discussion will not be given full credit. Thus, always *briefly* but fully explain your answers although the question does not expressly ask for an explanation. Do not re-write or repeat the question in your Notebook.

3. Make sure you do not write your *name* or any *extraneous note/s* or *distinctive markings* on your Notebook that can serve as an identifying mark/s (such as names that are not in the given questions, prayers, or private notes to the Examiner). Writing, leaving, or making any distinguishing or identifying mark in the exam Notebook is considered cheating and can disqualify you.

Romeo and Julia have been married for twelve (12) years and had two (2) children. The first few years of their marriage went along smoothly. However, on the fifth year onwards, they would often quarrel when Romeo comes home drunk. The quarrels became increasingly violent, marked by quiet periods when Julia would leave the conjugal dwelling. During these times of quiet, Romeo would "court" Julia with flowers and chocolate and convince her to return home, telling her that he could not

live without her; or Romeo would ask Julia to forgive him, which she did, believing that if she humbled herself, Romeo would change. After a month of marital bliss, Romeo would return to his drinking habit and the quarrel would start again, verbally at first, until it would escalate to physical violence.

One night, Romeo came home drunk and went straight to bed. Fearing the onset of another violent fight, Julia stabbed Romeo while he was asleep. After his stint abroad, he was shocked to know that B became the paramour of a married man, C, and that all the monies he sent to B were given by her to C. To avenge his honor, A hired X, Y and Z and told them to kidnap C and his wife, D, so that he can inflict injuries on C to make him suffer, and humiliate him in front of his wife. X, Y and Z were paid P20,000.00 each and were promised a reward of P50,000.00 each once the job is done.

At midnight, A, with the fully armed X, Y and Z, forcibly opened the door and gained entrance to the house of C and D. C put up a struggle before he was subdued by A's group. They boarded C and D in a van and brought the two to a small hut in a farm outside Metro Manila. Both hands of C and D were tied. With the help of X, Y and Z, A raped D in front of C. X, Y and Z then took turns in raping D, and subjected C to torture until he was black and blue and bleeding profusely from several stab wounds. A and his group set the hut on fire before leaving, killing both C and D. X, Y and Z were paid their reward.
